

TEAMWEAR

2020 Edition

Confidence isn't born. Confidence is made.
It's a process. It's a team effort. Confidence is
built together. United in Jersey, badge and spirit.

Come game time, you've raised your fitness.

You've owned the grind and got stronger.

Early mornings, late nights, bad weather.

Owned, owned and owned.

Come game time, you've raised your focus.

Sound mind = Sound game.

You're rested, recharged and grounded.

Come game time, you've raised your confidence.

The journey to the stadium, the warm ups,
the talks and the rituals. You're prep'ed for anything.

Come game time, you've raised your team spirit.

You're united in something greater.

Beyond colours. Beyond badge. Beyond the game.

Come game time, you've raised the bar.

You're ready to compete with anyone.

You're everything you want to be.

Everything they wish they were.

Because with adidas teamwear,

you've raised your game.

END PLASTIC WASTE

Plastic is the problem. Innovation is the solution.

Our world today is a plastic one — fueled by the oil we pump out of the ground to create plastic products that we throw away. Except, when it comes to plastic, there is no “away”. It is all still here, building up.

And it has reached a tipping point:

—

360 million tons of new plastic is added to the planet every year.

This makes around 500 kg of virgin plastic added per every one of us.

Every year.

—

Less than 10% of plastic is recycled globally, and plastic waste is filling our oceans, our food, our bodies.

—

We only have 10 years left to the point of no return.

IT'S TIME TO FIND SOLUTIONS

We aim to END PLASTIC WASTE by using recycled materials, adopting circularity, and fulfilling this in a manner that is nurturing to nature.

We are here to change our legacy — to shift the industry and to empower change for our athletes. We believe, through sport, we have the power to change lives for a better future.

THE END OF VIRGIN POLYESTER

We'll shift entirely to recycled polyester by 2024.

Polyester is the most used material in our products.

It has great properties for sports performance because it dries quickly and is super lightweight. We can't make the transition overnight, but we are committed to phasing out the use of virgin polyester entirely from all products.

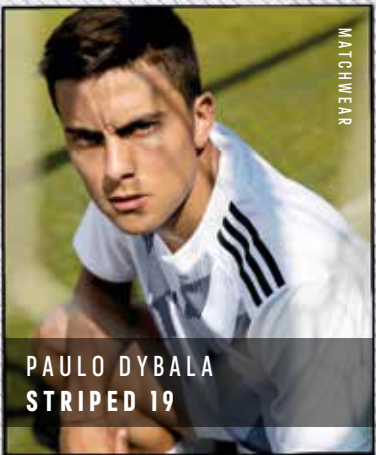

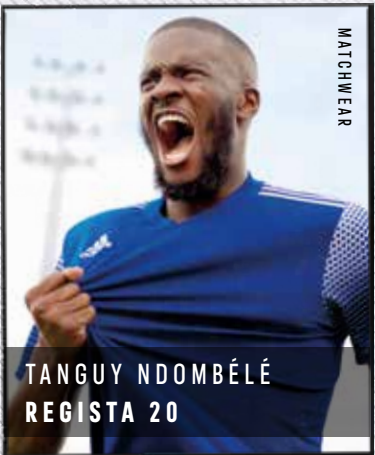

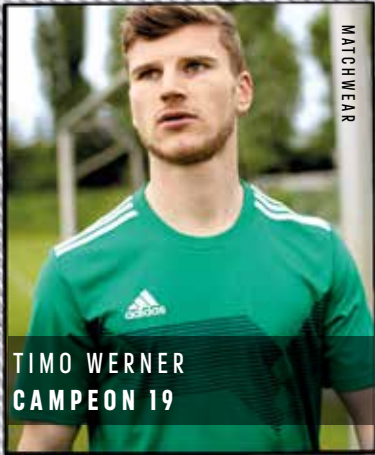

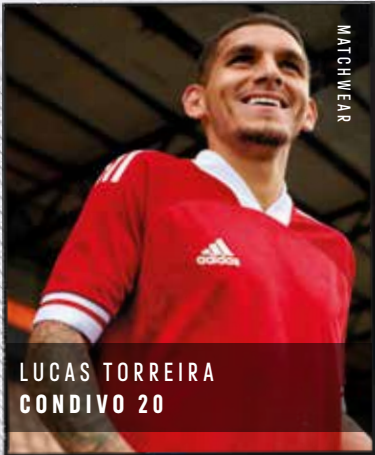

We started in 2012 at the London Olympic Games, where we equipped all volunteers with uniforms made from recycled polyester.

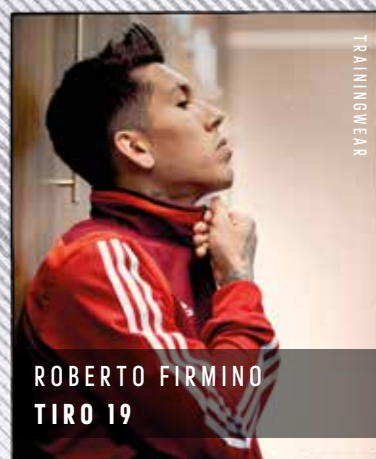

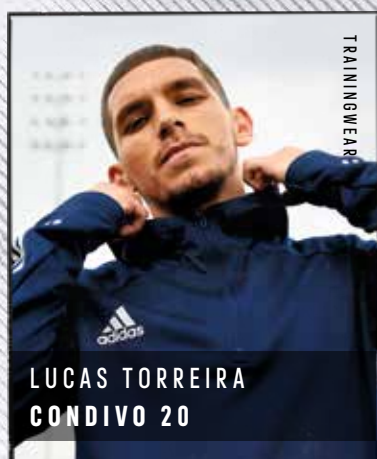

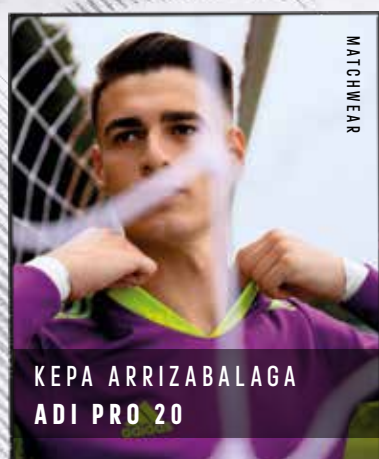

In 2019, the majority of our football jerseys and running shoes are now made more consciously. But we're not stopping there.

By 2024, all of our shoes and clothing currently made with virgin polyester will be made with recycled polyester. We'll deliver the same style, high-performance and durability while significantly reducing the impact on the environment.
